

OPTIGUIDE™ PDT LASER FIBERS

The OPTIGUIDE™ DCYL 200 series optical diffuser fiber is a light delivery system consisting of a 400µm core silica optical fiber, a proximal SMA-type connector and a distal light diffusing tip. The fiber is designed to distribute light energy uniformly over the specified length of the diffuser tip.

The OPTIGUIDE™ DCYL 200 series fiber is intended for single use only. All OPTIGUIDE™ DCYL 200 series fibers are intended for use with DIOMED®, Coherent® and Laserscope® PDT lasers.

DCYL 200 Series Catalog Numbers	Diffuser Length/Description	Tip OD	List Price \$US Each
DCYL210	1.0cm Cylindrical	1.65mm	\$470
DCYL215	1.5cm Cylindrical	1.65mm	\$525
DCYL220	2.0cm Cylindrical	1.65mm	\$580
DCYL225	2.5cm Cylindrical	1.65mm	\$605
DCYL250	5.0cm Cylindrical	1.65mm	\$650

■ SHIPPING & HANDLING

A Shipping & Handling Charge of \$85.00 applies per order. Therefore the more fibers ordered (up to 20) on one order, the lower your cost per fiber. For example:

Cat #	Qty	List \$US	S&H	Total Order	Your Cost Per Fiber
DCYL210	1	\$470	\$85	\$555	\$555
DCYL210	2	\$470	\$85	\$1,025	\$513
DCYL210	10	\$470	\$85	\$4,785	\$479
DCYL210	20	\$470	\$85	\$9,485	\$474

Notice to Canadian Customers: Payment and Remittance must be in \$US.

■ TO PLACE AN ORDER :

Phone or fax your order to:

Phone: 1-866-4FIBERS (434-2377) Fax: 1-866-5FIBERS (534-2377)

- OPTIGUIDE™ fibers are for sale and use in US and Canada only.
- Please quote the Catalog Number and specify whether fiber is for use with a DIOMED®, LaserScope® or Coherent® laser.
- S & H remains the same (\$85.00) for one order of any quantity up to 20 fibers.
- Applicable taxes are additional to your cost.
- Federal Law (USA) restricts this device to sale by or on order of a licensed physician.
- fibersdirect.com reserves the right to change price and specifications without prior notice.

■ INDICATIONS FOR USE

OPTIGUIDE™ fibers are intended for use in Photodynamic Therapy (PDT) as a source for the photoactivation of PHOTOFRIN®, (porfimer sodium) for injection for:

- palliation of patients with completely obstructing esophageal cancer, or of patients with partially obstructing esophageal cancer who, in the opinion of their physician, cannot be satisfactorily treated with Nd: YAG laser therapy,
- reduction or obstruction and palliation of symptoms in patients with completely or partially obstructing endobronchial nonsmall cell lung cancer (NSCLC), and
- treatment of microinvasive endobronchial NSCLC in patients for whom surgery and radiotherapy are not indicated.

■ WARNINGS AND PRECAUTIONS

Adverse effects of the laser could be related to inappropriate laser powers or improper use. Likelihood of adverse reactions will be reduced if the conditions and instructions for use, as fully described in the PHOTOFRIN® and OPTIGUIDE™ Fiber Optic Diffuser Package Inserts, are followed.

Use of incompatible Lasers that alter the required output characteristics of light for the photoactivation of PHOTOFRIN® could result in incomplete treatment due to partial photoactivation of PHOTOFRIN®, overtreatment due to over activation of PHOTOFRIN®, damage to surrounding normal tissue, and/or damage to the fiber optic diffuser which could additionally create an optical hazard for medical personnel and/or patients.
